

Vote list #3 on March 18th

**PARTY FOR THE ANIMALS**

**NATURALLY.**

**Groningen, the greenest city in the Netherlands.**  
**That's the goal of the Party for the Animals. Everyone**  
**in Groningen deserves a green neighbourhood,**  
**healthy food, clean air, and a nice place to live.**  
**This is good for people, animals, and the environment.**  
**And it's urgently needed to fight climate change.**

**So, on March 18th, vote for the Party for the Animals.**  
**Naturally.**

## **1 NO TO ANIMAL SUFFERING, YES TO ANIMAL RIGHTS.**

- In all its policies, the municipality council pays attention to animal rights and animal welfare, whether it concerns construction, mobility, healthcare, events, or nature.
- In this growing city we provide places of tranquillity. Parks, such as Sterrebos and Stadspark, remain peaceful places for people and animals.

## **2 LESS POLLUTION, MORE NATURE.**

- We will make Groningen even greener. We will protect existing nature and plant as many new plants and trees as possible.
- Healthy food is a basic necessity: food gardens in every neighbourhood, district, and village.
- Groningen will be CO<sub>2</sub>-neutral by 2035.
- We will work together with residents, neighbourhood associations, and nature organisations on the energy transition.

## **3 LESS EXCLUSION, MORE COEXISTENCE.**

- We invest in culture, make museum visits more affordable, and preserve creative breeding grounds such as the Biotoop.
- From the housing market to public housing: we build in a circular, nature-inclusive, affordable way, with space for alternative forms of housing such as the Biotoop, Westpark and Woldwijk.
- Livelihood for everyone by investing heavily in tackling poverty and debt problems.
- Safety first: street harassment, violence, racism and discrimination have no place in our municipality.
- Everyone healthier: we reimburse dental costs for those on low incomes and make the air cleaner.
- We show solidarity with refugees and provide humane accommodation spread across the municipality
