

Vote 18 november

PARTIJ VOOR DE DIEREN

HILVERSUM - WIJDEMEREN

NATURALLY.

The Party for the Animals puts well-being above wealth and steers politics in a green direction. The more votes we receive, the more natural, animal-friendly, and fair Hilversum - Wijdmeren will become. Change starts close to home. So vote for the Party for the Animals. Naturally

Jojanneke Vanderveen
Lead candidate

1 NO ANIMAL SUFFERING, MORE ANIMAL RIGHTS.

- The council takes animal rights and animal welfare into account in all its policies, whether on nature, construction, care, finance or education.
- We stop facilitating, organising and subsidising activities that use animals for entertainment.
- Our municipality takes good care of pets. There will be enough safe off-lead areas for dogs, and pets can accompany their families into domestic violence shelters.

2 LESS POLUTION, MORE NATURE.

- We will make neighbourhoods greener, to keep them cool and to help nature. We turn the Hilversum Market Square into a shady spot with trees.
- More green corridors will be created between residential and rural areas, so that we can protect and expand vulnerable nature.

- We will invest in safe walking and cycling paths. Public transport must be reliable, affordable and accessible.
- We will avoid the use of poison (chemical pesticides) and only plant organically grown plants.
- Recreation and tourism must not come at the expense of nature.

3 LESS EXCLUSION, MORE COMMUNITY.

- We oppose all forms of racism and discrimination. We are the proud host of the Gooise Pride.
- We take our fair share in providing shelter for refugees. Accommodations are small-scale and enable people to take part in society.
- We ensure accessible streets, squares and buildings. Streets will get better guiding strips and safe, wheelchair-accessible paths.
- A good home is a basic right for everyone. We make room for sustainable housing initiatives, such as eco-neighbourhoods. At least 40% of homes are social housing.
